Adjustable Undercarriage Cleaner

With the Hurricane Pro model you are not only able to clean underneath vehicles, you also have the ability to pivot the spray deck which allows for multiple cleaning angles. Deck adjustment from 0° to maximum 90°.

The adjustable angles allow for "all-around" cleaning on construction machines, fleet vehicles, boats or agricultural machines using just one model undercarriage cleaner.

Three large swivel casters make your cleaning job easier with full range of motion, allowing you to maneuver even on rough surfaces. Standard long range stabilizer nozzles on the Mosmatic Hurricane Pro increases the distance and impact of your cleaning project. Use this new cleaning tool from Mosmatic with either hot or cold high-pressure pumps.
